

Limited Supply of Hullless Oats Available at Points in Manitoba

New-Variety, "Laurel," Valuable to Livestock and Poultry Farmers—Being Grown in Manitoba and Saskatchewan

M. J. Tinline, Superintendent, Dominion Experimental Farm, Brandon, Man., has the following to say on hullless oats. While oats without hulls have been grown in Canada for quite a number of years, their use has not spread, due first to the scarcity of seeds, second to their susceptibility to smut, and third for the reason that a few oats with hulls have been found in almost every sample. For some years now hullless oats have been grown on the Experimental Farm, at Brandon, to provide feed for the manufacture of chick mash, calf feeds, and for starting pigs.

Some of the difficulties that were experienced in the early years have been overcome and a limited supply of hullless oats is now available at a number of points in Manitoba. They are also grown in Ontario, particularly in Haldimand county. The ordinary treatment with formalin for smut caused serious injury to the germination of hullless oats and since these oats are particularly susceptible to this disease, treatment was necessary, with the result that many stands of hullless oats were thin, due to failure of some of the treated seed to germinate. In recent years, it has been found that smut in hullless oats can be completely controlled by the use of two ounces of copper carbonate per bushel. This is an inexpensive and effective treatment. The third difficulty that was formerly encountered namely the presence of ordinary hulled oats in the hullless variety can also be controlled by the very simple process of "floating off" any oats that carry the hull in the seed grain. This also affords an opportunity to remove any wild oats.

Some years ago a new variety of hullless oats, Laurel, was introduced by the Central Experimental Farm. As hullless oats gave promise of being of considerable value to live stock men and to the poultry industry, these oats were multiplied on the Brandon Experimental Farm, and in the spring of 1932 seed of these oats was sent to twelve farmers in different districts in Manitoba. The surplus stock of these oats was sold to a few seed growers in Manitoba and Saskatchewan.

Some of the difficulties that were experienced in the early years have been overcome and a limited supply of hullless oats is now available at a number of points in Manitoba. They are also grown in Ontario, particularly in Haldimand county. The ordinary treatment with formalin for smut caused serious injury to the germination of hullless oats and since these oats are particularly susceptible to this disease, treatment was necessary, with the result that many stands of hullless oats were thin, due to failure of some of the treated seed to germinate. In recent years, it has been found that smut in hullless oats can be completely controlled by the use of two ounces of copper carbonate per bushel. This is an inexpensive and effective treatment. The third difficulty that was formerly encountered namely the presence of ordinary hulled oats in the hullless variety can also be controlled by the very simple process of "floating off" any oats that carry the hull in the seed grain. This also affords an opportunity to remove any wild oats.

IMPORTANT NOTICE

NOTICE IS HEREBY given all residents of the Village of Irma, who have been asked by Deputy Fire Chief Levitt to make certain alterations for the removal of fire hazards, to do so without further delay. If the alterations recommended are not made within a reasonable time, each case will be summarily dealt with.

IRMA VILLAGE COUNCIL,
E. W. Carter, Secretary.

Ah tells yo' judge, Ah's innocent ob hitting dat woman wid ah flat-iron. She done hit husef.

Hold on now! Common sense tells dat a woman wouldn't hit herself with a flat-iron.

Ah knows, judge. She didn't mean to hit husef. She done throwed de iron at me, but she fo'got it was an electric iron and de co'd swung it back.

"Brother Jones, does your daughter trust in God?"

"She must, judging from the company she keeps."

JARROW PERSONALS

ELSIE THEROU IS LAID TO REST
Jarrow, March 9.—The funeral of Elsie Therou, 14-year-old daughter of Mr. and Mrs. Geo. Therou, was held at the United Church of Jarrow on Tuesday afternoon, March 7, at 2 p.m. Elsie was born in the Jarrow district on March 15th, 1918, and has lived here all her life. She attended the Batts school, of which she was a very promising pupil and was a regular and devoted member of the Sunday school held in the same building. She had hopes of soon being so far advanced in her music as to be able to be organist for the Sunday school and church services.

Last summer, Elsie went with her uncle and aunt, Mr. and Mrs. John Therou, to the Nazarene Camp Meeting at Red Deer and made the great devotion while there.

She has been her mother's right hand in the home, being an energetic and capable little housekeeper. She will be sadly missed by her parents and two little sisters, Genon, and Irma, as well as by a large circle of friends.

The church was filled with friends and neighbors. A very comforting message was delivered by the Rev. Mr. Taylor. The hymns chosen were "Softly and Tenderly," "Jesus is Calling," "I Think When I Read that Sweet Story of Old," "Safe in the Arms of Jesus," "Mrs. Waite and Miss Vera Alexander sang sweetly, "He Wipes the Tears from Every Eye."

The pallbearers were Lester Taylor, Harold Lison, Russell Alexander, E. Baker, Carl Denison and Stanley Bridgman.

Beautiful floral tributes were received from Snyder brothers, Knudson families (South Dakota), Mrs. H. Erickson, Mr. and Mrs. Reitan, Mr. and Mrs. H. Knudson, Mr. and Mrs. Pudero, Mr. and Mrs. M. Knudson, Denison family, Batts Sunday school, Jarrow Ladies' Aid, Jarrow Masonic Lodge, Jamieson family, Jarrow community, Therou family, Miss Kennedy and Batts Junior Red Cross.

NOTICE

TENDERS will be received up to March 16th for five cords green and one cord of dry wood (cord measuring 8 ft. x 4 ft. x 4 ft.) cut in 16 in. lengths and delivered at Irma Rural High School by 15th April, 1933.

FRED B. CHALLIES,
Secretary.

"I heard that your party was all wet."

"Yeah, it got so hot that it started the automatic sprinkler system."

CRESCENT HILL NOTES

A very enjoyable evening was spent at Crescent Hill school on Monday, March 6, when a large number of friends gathered to give Miss Lillian Sanders, a bride-to-be in the near future, a pleasant surprise in the way of a miscellaneous shower.

The first part of the evening was in dancing. At a specified time Miss Edith Fitzpatrick and Mrs. C. Steele brought in a large collection of parcels, of various shapes and sizes, and presented them to Miss Sanders. The above ladies opened the parcels and Miss Sanders was asked to read out the directions for use which were provided all kinds of amusement for the audience. After the parcels had all been opened, Miss Sanders very kindly thanked all for their kindness and good wishes. Mr. Sanders, on behalf of Mrs. Sanders and himself, expressed their appreciation of the manner in which their neighbors and friends had staged this party in honor of their daughter.

Mr. Harold Morse, Miss Sanders' fiancé, was called on for a speech which he gave, thanking all friends for the many beautiful gifts.

The program was brought to a close by Mrs. Pryce Jones of Irma, singing in her pleasing manner "A Little Grey Home in the West."

CARD OF THANKS

We wish to thank all those who so kindly assisted during our recent bereavement, especially our neighbors, the Jarrow community, Dr. Harworth and the Viking hospital staff; also Mr. and Mrs. Crouse, and Mrs. Rollins of the Jarrow community, for the many beautiful floral tributes.

MR. and MRS. GEO. THEROU,
and Daughters,
GENON and IRMA.

Implement Shed on Farms Sign of Neat and Thorough Farmer

Practice of Leaving Machinery Out in Open Too Common
—Manitoba Agrarians Find it Pays
Store Machines

The care of farm machinery is explained in the following article by D. A. Brown, of the Dominion Experimental Farm, Brandon, Manitoba:

"Larger machines, greater numbers and higher prices have combined to increase very considerably the average farm investment in machinery in recent years. It was estimated in 1929 that the average Manitoba farm had nearly \$2,000 worth of implements on which the annual charge for depreciation and repairing alone amounts to \$400.00. An investment as costly as this, to be profitable, requires that machinery should not only operate efficiently but that the life of usefulness should be as long as possible. This cannot be expected unless good care is given."

The seven-illustration Stations in Manitoba and Eastern Saskatchewan, under the supervision of the Dominion Experimental Farms, are a source for useful data relative to the cost of operation, the life period, and the influence of care on machinery. The majority of operators on these stations agree that there are two essentials contributing towards the profitable use of a machine, (a) durability of build, (b) the care given. As to what care should be accorded a machine there is, however, a difference of opinion. It is generally conceded that proper lubrication and prompt repairing are necessary, but, as to housing some do not think it pays to build a shed for machinery, while others consider the implement shed a very valuable part of the farm equipment.

Granting that the importance of timely and thorough lubrication is fully recognized, and, that unless breakages are promptly repaired, they often lead to a disastrous end, the more debatable point of shelter for machinery will be discussed.

It is far too common a practice on prairie farms to leave a machine in the field where it was last used until it again to be put into action. A high priced seed drill may be seen in a field at harvest time being cut around and left in a smother of grain and weeds. A binder may sit along a fence row to decay throughout its long season of long inactivity while other implements of lesser or even greater importance find resting places which are far from suitable to their preservation. The best and most profitable place for such machinery is not even in carefully placed rows in the corner of the farmyard but in a suitable shed which need not cost much to erect.

This is the opinion of a large number of Manitoba farmers who have implemented sheds and who carefully store their machinery in them for the long winter season, and who take a pride in the neatness of their sheds. A shed in good shape, in fact, care of machinery and good farming go hand in hand for it is generally observed that the farmer who takes a pride in keeping his implements in good shape, in maintaining a tidy yard and farm by placing his implements in a shed especially for the winter, is a farmer who is neat and thorough in all his work. He knows that tools in poor shape cannot do good work and that the results of

Minutes of Council Meeting Battle River M.D. No. 423

Bylaws No. 37 and 38 Receive Final Readings—Reeve Smallwood and Secretary Wilbraham Will Execute Agreements on Behalf M.D.

The council of the Municipal District of Battle River No. 423 met in the municipal office on Thursday, February 9, 1933, with full council present.

The minutes of January 12 were read and approved as read on motion of Mr. Blakey.

Moved by Mr. Vesey that the report of the reeve and secretary re Jas. McIlroy be accepted. Crd.

Moved by Mr. Burton that the secretary write Mr. Berthel to meet the council at the next meeting on Monday, March 13, 1933, regarding the N-1-2 17-44-9-4 without fail. Crd.

Moved by Mr. Blakey that the matter of the S.B. and NW 7-46-8-4 be tabled until next meeting.

Moved by Mr. Archibald that the council accept lien note from Jerome Barmis on goods and chattels for security on taxes NE 11-46-7-4 to come due October 1, 1933, and the seizure made September 20, 1932, be released. Crd.

Moved by Mr. Burton that the application for Old Age Pension of Frank Peterson be received and that the pension be granted by approval by this council and secretary forward all papers to the old age pension department with due approval. Crd.

Moved by Mr. Blakey that the application of Annabel Peterson for old age pension be received and that the pension be granted by approval by this council and secretary.

Moved by Mr. Archibald that bylaw No. 37 for the purpose of entering into an agreement with the Winnipeg Municipal Hospital for the purposes of the care of the indigent sick of the municipal district pass its third and final reading, and that the reeve and secretary be authorized to affix their signatures and the seal of this municipality to schedule A of this bylaw. Crd.

Moved by Mr. Blakey that bylaw No. 38 for the purpose of donating to portion of the Irma cemetery, being lot 31, block 4, to the British Empire Service League, pass its third and final reading and that the reeve and secretary be authorized to affix their signatures and the seal of this municipality to schedule A of this bylaw. Crd.

Moved by Mr. Dalton that the secretary write Mr. S. Barmis to certify that this council do not consider him well enough established to consent to the bringing of a case against his wife and minor son. Crd.

Moved by Mr. Blakey that the secretary write Mr. S. Barmis to remove loose barbed wire on SE 36-7-4, that the same is a nuisance to the public and request this be remedied without delay. Crd.

Moved by Mr. Archibald that the secretary write Mr. Bargarsh regarding loose wire on an acre or so on his property which is dangerous to the public and request same be looked after without delay. Crd.

Moved by Mr. Archibald that the statement for month of January, 1933 be passed as presented. Crd.

Moved by Mr. Archibald that the following accounts be passed and paid:

Armstrongs Ltd., relief, Jan. \$ 12.00	
(Abernathy)	
McFarland Co., relief, Jan. 7.19	
(Fifteenth relief)	
McLeod and son, funeral exp. 60.00	
McLeod and son, funeral exp. 70.00	
Goodkey relief 26.44	
Western Municipal News, 3.10	
State, 26.44	
Supt. Child Welfare, Mothers' Allowance, Dec. 62.25	
L. A. Schon, audit 1932 100.00	
Chas. Wilbraham, salary Jan. 90.00	
Chas. Wilbraham, rail fares, 2.10	
M.A. and relief 56.53	
Petty cash accounts 2.97	
Irma S.D. coll. Jan. 56.53	
Mun. acct. retained, 2.97	
W. N. Frickleton, drugs, relief 1.70	
Dept. of mun. affairs, supp. revenue coll. 120.58	
Irma Times, papers, Jan. 30.00	
Cemetery account re McIlroy P. E. Jones, services rendered re McIlroy 3.00	
E. E. Sharkey, digging grave, re McIlroy 12.00	
Time sheet, div. 6, W. Milton, foreman 5.00	
Motion carried.	

The following matters were reviewed and dispensed with:

Registration notice, admittance of Mrs. C. Abernathy, relief.

Registration of caveat, re Gulltner. Hospital accounts Jerrace and McIlroy from Wainwright hospital held over.

Registration of bill of sale re McIlroy.

S.S.B. and J. R. Love's taxes.

Attorney-general's approval of Mrs. Worthington's Mothers' Allowance at \$12.00 per month.

Moved by Mr. Blakey that council adjourn.

CHAS. WILBRAHAM,
Secretary-Treasurer,
M.D. Battle River, No. 423, Irma, Alberta.

A pretty young woman stepped into a music shop last night. Mr. Ma. She tripped up to the counter where a new clerk was assisting music, and in her sweetest tones asked, "Have you Kissed Me in the Moonlight?"

The clerk turned, and looked, and said, "It must have been the man at the other counter. I've only been here a week."

Pains Around Her Heart

Tired Out After Doing Housework

Mrs. Henry Beach, Mariel Lake, Alta., writes:—"Last fall I had had pains around my heart, and each morning, after doing a little housework, I seemed to get dizzy and feel all tired out."

Seeing that Milburn's Heart and Nerve Pills were good for these troubles I sent for a box, and after taking the Pills for a few days I felt a whole lot better. Since then I have had no return of the dizzy spells and pains around the heart."

For sale at all drug and general stores; put up only by The T. Milburn Co., Ltd., Toronto, Ont.

The World Wheat Situation

The time is rapidly approaching when the farmers of Western Canada will once again be busily engaged in seeding their land. As they do so their thoughts naturally will speed forward and they will ponder on the possibilities of the harvest that will result from their seeding. But this year, probably to a greater extent than in any previous year, their thoughts will not dwell so much upon such aspects of the harvest as the grade that will be obtained—important as these always are—but, rather, upon the price that it may be possible for them to secure; that is, whether in the long run, they will reap a profit above the costs of production for their season's hard work.

In volume of production, the wheat growers of Western Canada had a good crop last year, nor was there much to complain about in the average grade secured. True, some sections of this vast prairie country again suffered from drought, but the area so affected was much smaller than in the preceding year. Nevertheless, disaster befell our wheat growers because the price obtainable for wheat reached the lowest point in hundreds of years—far and away below the cost to the farmer of producing the wheat. And as seeding time approaches, there has been practically no betterment in prices. The prevailing price is still less than it will cost the farmer to produce the wheat.

Like the weather, and so many other factors, the price of wheat is something beyond the power of the farmer to control. He is forced to accept the prevailing world price. Even the so-called six cents a bushel preference in the British market means little or nothing to him because the star must sell in that market at the prevailing world price. The so-called preference will not add a fraction of a cent to that price.

Under these circumstances, farmers—and everybody else—are interested in the world wheat situation, because it is that situation which will be the price-fixing and controlling factor. We propose, therefore, to present for the information of readers of this column, certain facts and figures compiled by Donald M. Marvin, Economist, for the Royal Bank of Canada, which were made public on February 1.

First. World shipments of wheat since August 1, 1932, were the smallest in ten years. Shipments to the Orient were relatively large, but other countries took only moderate amounts, and shipments to Europe were very light, as the result of the record crops harvested in many European countries last year. Notwithstanding this situation, Canada exported a large volume, supplying more than one-half of all the wheat shipped from all wheat exporting countries.

Second. The reason why Europe took only moderate quantities of wheat during the last half of 1932 is accounted for by the fact that bumper crops were harvested there in 1932, and new high records in wheat production were established in Germany, Italy, Spain, Portugal, Greece, Holland, Scandinavia and Czechoslovakia, while France produced 65,000,000 bushels more than in 1931. As a result Western Europe produced 180,000,000 bushels more than in the previous year. In order to dispose of these supplies, tariffs, quotas, and other restrictions on wheat imports were substantially increased. On the other hand, Russia and the Danubian countries had smaller crops and practically no wheat to export.

Third. In 1932, owing to unfavorable conditions, wheat production in the United States dropped 175,000,000 bushels compared with 1931, and was 150,000,000 bushels below the five-year average. But while the U.S. thus raised only about sufficient for its own use, it still had a large carry-over from previous years. The Australian crop showed an increase of about 10,000,000 bushels, and Argentina an increase of practically the same amount.

Fourth. Canada's big crop last year, added to its carry-over from previous years, gave us total wheat supplies for the period August 1, 1932, to July 31, 1933, of some 566 million bushels. Of this, 125 million bushels are required for domestic purposes, leaving 441 million bushels for export. Of this latter amount, 140 million bushels have already been shipped, thus leaving about 300 million bushels to ship before the end of July, or to be carried over. Broomhall, the British expert, estimates that another 180 million bushels will be exported by Canada, leaving a carry-over on August 1st next of around 120 million bushels, or from 15 to 20 million bushels less than a year ago.

Now, as to present and future prospects. The condition of the winter wheat crop in the United States was, on December 1st last, officially reported as the lowest since 1893. Australia is selling much of her wheat in the Orient. Wheat importing countries will, however, require about 82 million bushels less in 1932-33 than was the case in 1931-32. European imports have been restricted in the first half of the present crop year in order to expedite the disposal of the domestic supplies created by the bumper crops already referred to. It is to be expected that Europe's demands will be much heavier between now and July 31 next.

On the other hand, the total surplus of wheat available for export is more than ample to meet all requirements. Supplies in the Southern Hemisphere are about the same as last year. Heavy stocks are still held in Canada and the U.S. Russia and the Danubian countries are, however, not in a position to export in the same volume as in previous years. Winter wheat crops have suffered in Europe as well as in the U.S. although it is too early to estimate the ultimate output.

for COLDS

Head Colds: Heat Mucous and Inflammation. Chest Colds and Sore Throat: Heat, then rub well into affected parts. Real relief... quickly!

W. N. U. 1932

Booking Clerk at small station—
"You'll have to change twice before you get to York."
Villager (unused to travelling)—
"Goodness me! And I've only brought the clothes I'm standing up in."

An American lady has married the third of three brothers after divorcing the other two. It's a remarkable compliment to her mother-in-law, at least.

Oil has been found in Austria, the geographical formation resembling that in Texas.

Western Fair Circuit

Attractions For Western Canada Exhibitions Are Of High Order.

Secretary J. E. Rattle announced that contracts for attractions for the western Canada circuit of exhibitions have been completed by the five fairs in the loop. While the exhibitions have been forced through the stress of economic times to reduce their expenditures for outdoor features, it is the belief of the officials that the line-up of 1933 will be on a par with other years.

The spectacular "Bird of Paradise" setting will be given each evening during fair week. It is sponsored by A. Thavin, one of the world's foremost musical directors. The director has been given a free hand to pick his talent from any western city, but will probably employ five or six musicians in each of the exhibition centres.

Other grandstand attractions will be the "Four Night Hawks," instrumental humorists, the "Seven Tip Tops," A. Rinley, and tumbling act; the "Nine Toyama Japs," in acrobatic stunting; Rita and Dunn, a high wire act; the "Three American Clowns," and Master Eugene, the boy xylophonist.

Have Hypnotic Power

Apples Are Said To Hasten Ripening Of Bananas

Millions of bananas exported to Canada each year from the British West Indies may be ripened rapidly by placing a box of Canadian apples in the refrigerator in which the bananas are stored, according to Sir William Hardy, who delivered an address on the subject before the British Association of Refrigeration.

Air streams that have passed over the apples contain "subtle emanations" which profoundly influence other vegetable forms," Sir William declared. Only elderly apples have this hypnotic power. Potatoes, placed under the spell of apple proximity either do not sprout or merely put forth miserable wart-like growths, he said. On the other hand, an elderly apple tends to speed up the growth of a young apple.

Egypt's One Paper Mill

Located In Alexandria Produces Cardboard For Cigarette Boxes

There is but a single paper mill in Egypt. It is located in Alexandria and produces a cardboard for making cigarette boxes, for which there is a substantial demand in that country. It uses wastepaper and rags obtained locally. Only forty-six tons of pulp for paper making were imported in 1931. There is a project on foot for the construction of a paper mill primarily intended to use raw local materials in the shape of certain kinds of vegetation, but for the production of the better grades of paper and newsprint it would appear necessary to use imported woodpulp.

NERVOUS WOMEN

Take Lydia E. Pinkham's Vegetable Compound

"I am so nervous it seems as though I should fly." "My nerves are all on edge." "It is like I were dead." How often have we heard these expressions from our own women who have become so tired and run-down that their nerves can no longer stand the strain. No woman should allow herself to drift into this condition if she can help herself. She should give Lydia E. Pinkham's Vegetable Compound a trial. For nearly sixty years women have taken this wonderful tonic to give them renewed strength and vigor.

It is out of every 10 women who report to us say that they are benefited by this medicine. Buy a bottle today and you'll regret today—and watch the results.

No Use For It

Lady of the House: "Why don't you go to work? Don't you know that a rolling stone gathers no moss?"

Tramp: "Madam, not to evade your question at all, but merely to obtain information, may I ask of what practical utility is moss to a man in my condition?"

Forecasts Revival Of

The Timber Industry

B.C. Forester Believes Last Year Marked Low Ebb

"Stocks of logs in the water and lumber stocks in mill yards are now smaller than they have been at any time during the last three years, and any improvement in business conditions will mean immediate activity in logging and milling to fill orders," said a statement on the timber industry of this district by A. E. Parklow, district forester, at the annual meeting of the Prince Rupert chamber of commerce.

"Yard stocks of poles which were large at the beginning of 1930 have been drawn on gradually for two years with little or no replenishment. Telephone, telegraph and power lines depreciate at the same rate, whether business is good or not, and the time is near when extensive repairs and replacements will be necessary if the lines are to be maintained. Similarly the railways, which had large stocks of these on hand at the end of 1929, have purchased very few since that time, and must soon order large replacements to maintain their lines.

"From every angle there is reason to anticipate that 1932 marked the low ebb of the timber industry in this district and that 1933 should show at least a partial return to normal activity."

Puzzle For Pawnbroker

Wedding Dress Pawned Forty Years Ago Awaits Owner

What is to become of a wedding dress which has been in pawn 40 years, during which period the interest was paid regularly, is being discussed by pawnbrokers of London. Suddenly the payments have ceased, and pawnbrokers have been unable to trace the owner. The shop where it first was pledged quit business many years ago, but the dress was transferred to another establishment and the interest payments continued. It is now held by Robertson's Ltd. The woman who pawned it never returned to see it. The dress, once bright and fashionable with its trailing skirt of black, its green bodice stiffened with whalebone, and its green leg-of-mutton sleeves, has grown old and faded, and now is unwanted.

OFF COLOUR?
HOW IS YOUR LIVER?

Wake up your Liver Bile—Without Calomel

Your liver is a very small organ, but it certainly can put your digestive and eliminative systems in a state of collapse. It is the daily two pounds of liquid bile into your bowels. If you want to keep your bowels in good condition by taking saline, oil, mineral water, laxative candy you need a liver tonic. When you move your bowels they're through—and you feel a little better.

Carter's Little Liver Pills will soon bring back the sunshine into your life. They're purely vegetable. See a Druggist. Ask for them by name. Refuse substitutes. 25c at all druggists.

Indoor Gardening

Interest These Days Is Centering On Seed Catalogues

The season for indoor gardening is here. From now until the time when Spring actually arrives, countless Canadians will spend hour after hour pouring over the brilliantly illustrated pages of the seed catalogues, hoping for an early thaw and, tasting, mentally, of the delights which come to jaded appetites with the appearance of the first fresh vegetables of the year.

Then, there is the fun of planning the flower plot, an important first step and one which is best undertaken at this season of the year well in advance of the time when home gardeners can actually take to the yard with shovel, hoe, rake and trowel. Flower gardens, well planned ahead of the planting season, usually present the most beautiful arrangement of colors, more orderly arrangement as to height of the various plants and an assortment of varieties which bloom in succession so that the garden is never without flowers.

The annual catalogue of A. E. McKenzie Company, Ltd., whose headquarters are Brandon, has just been mailed to customers throughout the prairie provinces. It contains all of the standard and reliable varieties which have been grown in Canada successfully in past seasons and, in addition, includes a large number of new varieties which, according to tests, are thoroughly adaptable to the Canadian soil and climate and will give further variety to the garden.

Included is a Sand Cherry, a juicy, blue fruit, used for pies, jams and preserves. The small tree, or bush, on which it grows is hardy and has been especially bred for adaptability to Canadian conditions.

To inspire interest in the World's Grain Exhibition and Conference, which is scheduled for Regina, July 24 to August 5, the Company announces in its catalogue two contests in which \$2,250 in cash prizes will be awarded for letters relating to the Exhibition, for predictions of total attendance, and so on.

Get Rid of That
SORE THROAT!

Any little soreness in the throat grows rapidly worse if neglected. Crush some tablets of Aspirin in some water, and gargle at once. This gives you instant relief, and reduces danger from infection. One good gargle and you can feel safe. If all soreness is not gone promptly, repeat. There's usually a cold with the sore throat, so take two tablets to throw off your cold, headache, stiffness or other cold symptoms. Aspirin relieves neuralgia, neuritis, too. Use it freely; it does not hurt the heart.

ASPIRIN

TRADE-MARK REG. IN CANADA

Literary Tribute To Lady Nicotine

Poets and Prose Writers Express Mankind's Debt To Good Tobacco

Since the day when Sir John Hawkins, Ralph Lane, Governor of Virginia; Sir Francis Drake and Sir Walter Raleigh introduced and popularized smoking tobacco in England, tobacco has formed the inspiration of literary men and artists.

King James I., is said to have voiced early objection to smoking, refusing to permit his mouth to be "used as a chimney," but despite his royal prejudices, smoking became popular in England, and, indeed, throughout Europe. Poets, prose writers and philosophers from the sixteenth century on have extolled its beneficence and acknowledged the comforting solace of the "blessed weed."

In modern days among those who found a congenial theme in tobacco have been Sir James Barrie, the novelist and playwright, whose tender whimsicalities have made him a beloved figure in English letters wherever English is spoken and read. "My Lady Nicotine" will remain a classic of its kind.

Rudyard Kipling, the Poet of Empire, creator of "Kim" and "Soldiers Three," devoted several famous verses to the cigar:

"Open the old cigar box,
"Give me a Cuba stout."
"For ways are running crossways,
"And Maggie and I are out."
"A million surplus Maggies
"Are willing to bear the yoke;
"And a woman is only a woman,
"But a good cigar is a smoke."

One of the most enthusiastic of modern eulogies on cigars comes from the mouth of a character in Thomas Mann's novel "The Magic Mountain." "With a good cigar in his mouth a man is perfectly safe, nothing can touch him literally. It's just like lying on the beach. When you lie on the beach, you're safe. You don't require anything else in the line of work or amusement, either."

To Extend Invitation

Would Have Capt. Mollison and His Famous Wife Pay Visit To Canada

Capt. James Mollison, famous British long distance flyer, and his equally famous wife, the former Amy Johnson, may be invited to make a tour of Canada this summer.

The proposal, which emanates from a number of aviation leaders here, will be laid before the department of civil aviation at Ottawa, through which the official invitation would be extended.

The Mollisons are reported considering a trans-Atlantic flight, and it is urged that following this they make a tour of the Dominion, including a leisurely flight one way with stops at all cities on the trans-Canada air mail route one way, and the return, a non-stop flight.

The electric motors of modern bath-tubs have the energy of a million men.

More than 15,000,000 tons of products were shipped from Argentina in the first 10 months of 1932.

Maybe women have less imagination than men, but they know what they want when they want it.

Devise Artificial Heart

Remarkable Results Have Been Reported By Moscow Doctors

It is reported from Moscow that two doctors of the Institute for Blood Transfusion, have devised an "artificial heart" with which very remarkable results have been achieved in operations on dogs. With its help they succeeded in restoring the symptoms of life to the complete organism of a dog. The surgeon then carried out a series of operations on the hearts of living dogs with the help of the "artificial heart," the real heart being put out of action for four and a half minutes. The success was such, it is reported, that it is now possible to hope that similar operations on the human heart for diseases long considered incurable may become possible.

Leicester, a tragedy by William Dunlap in 1794, was the first American tragedy played. It is also called "False Deception."

HE HAD TO REDUCE

Easiest Way Proved the Best

A man who had been advised by his doctor to reduce, writes thus:—"I had put on weight to the extent of 206 lbs. This was excessive as I am only 5-ft. 6-ins. in height. My doctor advised me to reduce, and I tried hot baths and massage. This, however, was too fatiguing—and I am a very busy man. I then saw an advertisement about Kruschen Salts, bought a bottle, and commenced taking them right away. Last Saturday I weighed myself, and to my surprise and delight I had reduced my weight from 206 lbs. to 199 lbs. My health generally is better, I sleep well, and eat more heartily. I have spread the good news to my friends who are putting-on weight."—W.H.R.

Kruschen contains those six mineral salts, proportionately balanced, found in the waters of those famous European Spas used by generations of fat people to reduce weight.

Kruschen helps blood, nerves, glands, and body organs to function properly—you gain new strength and energy—feel years younger—look better, work better. Why postpone a sure, steady return to normal weight and vigorous health?—Start the Kruschen treatment today!

FREE TRIAL OFFER

If you have never tried Kruschen—try it now at our expense. We'll send you a great many special "GIANT" packages which may be for you to prove our claims for you. Ask your druggist for the new "GIANT" 75c package.

This consists of our regular 75c bottle together with a separate trial bottle sufficient for about one week. Upon the trial bottle first, put it to the test, and then, I am entirely convinced that Kruschen does everything we claim it to do, the regular bottle is still as good as new. Take back your druggist is authorized to return your 75c immediately without question. We'll give Kruschen free, at our expense. What could be fairer and better?

Kruschen is made by Dr. J. H. Kruschen, Ltd., 1750, St. George Street, Montreal, Quebec, Canada. Importers: McMillan Bros., Ltd., Toronto.

HEART OF THE NORTH

By WILLIAM BYRON MOWERY

(WNU Series)
Copyright by William Byron Mowery

CHAPTER VI.—Continued

Her heart leaped at the thought, and her whole manner toward Alan changed. She drew near him, slipped an arm about him, and a softness came into her voice.

"Dear, you're sorry to be out. I'm sorry to see you hurt. You didn't want to leave here, Alan. I—I did want you to, but I wouldn't have insisted. I'd have given in to you, dear, before I'd seen you unhappy. In the long run, we'll not regret; it'll be the best for us."

Alan watched the candle sheen in her hair; the auburn hair that always brought him poignant memories of her brother Curt. His thoughts, leaping ahead to his lone-handed venture, were scarcely with her at all, yet he was bewildered by her sudden change, her ardent affection. There had been times when affection from her would have cheered and heartened him; but now her lips, inviting him, asking for his own, meant less than the pack lying at his feet.

She asked him: "And now—you're going to take—we'll be down in Victoria, now? Won't Colonel Steele be glad when he hears? You'll write to him right away?"

"I suppose so. Yes, I'm going to take that job. Not much else to turn to."

She noticed how cold, how unmoved he was; and she went on, half-whispering:

"On our way outside, we can be married at Edmonton, and have that trip we planned to the Blackfoot Settlements. And we'll have—we can afford to have now!—a cabin back in Vancouver Island; a cabin in the mountains by ourselves, Alan."

"I'll keep quiet as a dead dog. I won't breathe a word. But Alan, why in h—l, why we've hung together, why can't I be in on your trick?" Eagerly he pleaded. "Let me go along, Alan."

"It'd mean desertion for you. Haskell would give you the limit. And you've got to watch after Joyce. My work is a one-man job anyway. We'll keep in touch, Bill. You write to me. Lord knows but—what you and I sometime ahead, might get together again."

They shook hands.

Alan hurried down the slope to the trading store. Factor Drummond had not gone to bed. The news of the patrol, of his old friend Dave MacMillan being arrested and faced with such overwhelming evidence of guilt, had upset him.

"What the devil, Alan?—civilian clothes!"

He merely said, gesturing at the alcove: "I'm leaving Curt's keepakes here. You'll watch after them, won't you?" And he added, "I'm leaving here tonight, Elizabeth."

"Leaving here? Tonight?" Her eyes went to the pack on the floor. Suddenly startled, she looked up at him again.

Feeling that he owed some explanation to the girl he was engaged to, he partly explained: "I'm pitching off on a trip, Elizabeth. By myself. I'm going after those men that shot up two of my friends. Haskell blocked a patrol I wanted to make. To go after them I had to be free. I don't know how long it'll take me. Maybe three weeks, maybe six. I'd like for you to wait here."

Something in his manner stopped Elizabeth from questioning him. She knew he intended to marry her, and take her to Victoria; but something told her that in this present hour it was not well to question or oppose Alan Baker.

She acquiesced: "I'll wait, dear. I'll wait here for you. But, Alan, before you go..." She stood on tiptoe, reproaching him, begging, "Aren't you going to tell me good-bye?"

Alan bent and kissed her, as she invited. But he did it dispassionately, as a thing expected of him. He felt her breath on his cheek, her arm tightening around him, her body pressed against his. He was subtly but unmistakably aware of a certain willingness about her; she wanted him to linger; she would have stayed with him there in the cabin. . . .

It surprised, it shocked him, after all these months when she had been so cold and passionless.

When she had gone, he buckled his pack and caught up his hat. As he started to mount the two candles in the alcove, he heard a thumping foot-step on the threshold and turned to see Bill Hardcock. In a flash he guessed that Bill had been waiting outside, not wanting to come in while Elizabeth was there.

"Alan! H—l's a blue blazes!" Bill was all but incoherent as he advanced across the cabin. "Say it isn't so! I heard..."

He didn't bust you? He didn't dare! And blame you for splitting our patrol? You didn't buy out—"

"That's what I did, Bill. He busted me, blamed me. What's worse, he wouldn't let us make the Inconnu trip. I couldn't stand that. I'm out. Leaving Edmonton. Right now."

Bill's face turned grey. His jaw dropped, he stood in stupefied shock, with a look of misery on his blunt, bulldog features.

"You're leaving—us," he gulped. "You're—pitching away—for good. You always stood up for us men, against Haskell. You and me..."

He didn't bust you? He didn't dare! And blame you for splitting our patrol? You didn't buy out—"

"Bill, shake yourself together and listen. I'm going after those hard-its. There's several things you've got to do for me. One is, I want you to cut aside from patrols whenever you can and visit Joyce and see she's safe. Another thing, I'm giving you this cabin and what's in it, except for a little personal stuff that I'll get some time or else send for. Then, there's one last thing. Got any free time coming in the next couple weeks?"

"I don't know. Yes, must have three or four days—way we've been hitting the ball all winter."

"Two days will be enough. I need a little help on my plan; and you, here at Edmonton, can give me a hand. It's not much, but it'll mean a lot to me. I'll tell you what I've got in mind, so you'll understand."

In a few terse sentences that left Bill gasping and swearing at so staggering a scheme, Alan sketched his plan.

"And you'll keep quiet about this, Bill? Don't tell Fed, Elizabeth, Drummond, anybody. If it ever gets out, it'd wreck the whole idea, and I'd probably land in a penitentiary."

"I'll keep quiet as a dead dog. I won't breathe a word. But Alan, why in h—l, why we've hung together, why can't I be in on your trick?" Eagerly he pleaded. "Let me go along, Alan."

Racking Coughs in Old Age

Checked by

SCOTT'S EMULSION

of Norwegian Cod Liver Oil

Builds Resistance Easy to Digest

Alan was weary of people's astonishment. He wasted no time with explanations.

"Drummond, where's old Dad Pence? I saw him here when we got back this evening."

Drummond pointed behind the counter. Alan walked around, up the narrow aisle, and there found old Pence asleep on a pile of wolf skins.

He had passed his three score and ten, old Dad Pence, at prospecting, trapping, water dogging, whatnot. He had made fortunes and guilelessly had lost them to men sharper than he. He had come down to the twilight of life penniless, homeless, childless. But old Dad Pence could still handle a rifle with the best of the youngsters, and a reputation for magic which he had acquired among the witch-killing Indians, still clung to him and put fear into primitive hearts. Altogether he was the man for Alan's purpose, if only Joyce would not mother him too much and make his existence there, after too desolate by contrast.

Shaking him wide enough awake to understand what was wanted of him, Alan explained. He was to go back to the Big Aloua with Joyce and watch after her. He was to keep in touch with Bill Hardcock. Under no circumstances was he to wander off into the bush and leave Joyce alone.

Old Pence nodded. "I'll do it, b'y, just as you say. I'll try not to forget and wander off in 't' bush. I'll look after Joyce, you don't worry."

Alan thrust a handful of bills into his pocket, and rose up and stepped

back around the counter. "I want to buy your motor canoe, Drummond. How much?"

(To Be Continued).

Carrier Pigeons Assist Fire Prevention Work

Birds Covered 5,600 Miles In Northern Manitoba Last Year

Although carrier pigeons of the forestry department branch in northern Manitoba flew 5,600 miles with messages during the last year, only five birds were lost, according to Robert S. Harvey, who is in charge of fire prevention in The Pas area.

There were 61 pigeons in the loft at Cormorant base, Mile 42, Hudson Bay Railway. Last year 26 birds were hatched. Ten suffered casualties in training. Two birds were carried on every flight made by aeroplanes.

The birds carried messages from Norway House, Winnipegosis, Cedar Lake, Herb Lake and Cold Lake. The loss of five birds is considered small, as flying is hazardous in the north, where settlements are few, where the smoke of forest fires interfered with birds on their course and where hawks are ever watching for an opportunity to swoop down on smaller birds.

To Save Gas

Greece Has Formulated Plan Whereby Cars Operate On Alternate Days

All the automobiles in Greece can operate on Sunday, but the rest of the week half of them must remain idle.

Under the new way of saving fuel cars with even numbered license plates are allowed to operate on Monday, Wednesday and Friday; those with odd numbered plates on Tuesday, Thursday, and Saturday.

Claiming to be the oldest trading concern in the world, a firm in Stockholm, Sweden, is displaying documents over 700 years old to prove that it has been doing business since the twelfth century.

The earth is more than 570,000,000 years old, a research by the department of chemistry of the University of Missouri has established.

The first directory of London had a royal origin, being started by Charles I., who wanted a list of citizens who could loan him money.

The average Canadian knows at 19 how he is going to vote at 90, Dr. F. W. Patterson, president of Acadia University, told a Halifax service club. The great majority of the population is influenced by habitual or emotional reactions, and guided more by party loyalties than by intelligence, he said. Four out of five did not know what they were voting for in normal times.

De Valera urges Irish women to forget Paris fashion and clothe themselves in homespun. If his present policies persist he will have them clad in potato sacks.

A dandelion has been discovered in the Crimea which contains milk from which rubber can be made, and it is believed that the production can be placed on a commercial basis.

EDWARDSBURG CROWN BRAND CORN SYRUP

The economical and delicious table syrup

A nourishing sweet for the whole family

THE CANADA STARCH CO. LIMITED, MONTREAL

Canada's Trade With Japan Is Increasing

Exchange Conditions One Cause According To Japanese Importer

Due to exchange conditions and precarious position of some western United States banks, much Japanese business with this continent has been diverted from the United States to Canada, declared M. Nakata, Japanese lumber and wheat importer, in an interview at Montreal.

"We can buy as much wheat in Canada for \$2 as we could from the United States for \$2.50," he stated, adding it was noticeable the business of the Seattle office of his organization was declining, while that of his Vancouver branch was on the upturn.

A greater demand for wheat would follow the imminent move of the Japanese government to stabilize and control the price of rice, he stated. An increase in the price level of rice would aid wheat sales.

A

"Let's Go Fishing at Camp Lake," May Soon Be Vacation Allure

Efforts to Stock Body of Water East of Viking Meeting
With Success—Trial to Start
This Summer

Viking, March 9.—Efforts to have Camp Lake, 12 miles east of Viking stocked with fish, have met with some success, according to them Kjar and other sportsmen of the district who have been in communication with the provincial department of fisheries for some considerable time.

An inspection of the lake for the purpose of seeing if it was suitable for fish life was made in 1929 by Mr. R. Rodd of the department of fisheries, who at that time reported that he thought the lake unsuitable for fish. No further inspection of the lake for this purpose has been made.

A communication from the department this week set out several difficulties in stocking Camp Lake. Chief among them is the water freezes to such a depth that no oxygen can enter the waters, and that gases cannot escape. Mr. Kjar stated that this could be remedied by having someone residing near the lake make a daily

round of the lake and keep some holes open during the winter months, and being paid a small sum each month for this service.

The fisheries department has pointed out that they will not go to any expense in stocking this lake with fish, but will lend any assistance to local parties who will undertake to do so. Fish will be supplied by the department if conveyance will be guaranteed by local parties. The idea has been received with enthusiasm by sportsmen and others in this community and arrangements will be made this summer to stock the lake and give it a thorough trial. The department expects to stock other lakes in the province, and will notify Mr. Kjar when fish are available for Camp Lake. All those interested are asked to be ready to give assistance when the time comes.

It is hoped that the experiment will be successful and that the lake will have a chance to go fishing in a lake in this district.

Review of Western Markets

CATTLE

BEEF—Offerings chiefly on plain and with demand indifferent. Edmonton market has been rather drab. Choice heavy steers \$3.25@3.50; choice light \$3.25@3.75; good \$3.25@3.50; medium \$2.25@2.75; and common \$1.50@2.25. Choice heifers \$3.25@3.50; good \$2.75@3.25; choice \$2.75@3.25; good \$2.25@2.75; medium \$1.25@1.50; common \$1.00@1.25; canners and cutters \$0.75@1.00. Choice bulls \$1.25@1.50; medium \$0.75@1.25; canners from \$0.50 up. Choice light calves \$4.00; common \$2.60@3.00. FEEDERS—STOCKERS—Little activity in this market. Feeder steers \$1.50@2.50; stockers \$1.50@2.50; stock heifers \$1.50@2.50; and stock cows \$3.00@3.50; butchers \$2.50.

SHEEP

Yearlings bringing \$2.50@3.50 at Edmonton this week; ewes \$1.25@2; lambs \$0.45@1.35.

CREAM—BUTTER—MILK—CREAM—Prices unchanged. Special, 17c; first, 16c; second, 15c; at country point and centralizing plants. Receipts light, but expected to improve when temperature moderates. CREAMERY BUTTER—Sales in fair way, with outside markets showing fairly firm. Attempts made to raise print market at Vancouver, but trade

still uncertain about New Zealand shipments. Prices steady: No. 1, 24c; No. 2, 23c; No. 3, 22c. DAIRY BUTTER—Little of this product offered, as bulk of milk being used in country. Fancy table in good demand, other grades slow. Fancy table, 15c; No. 1, 14c; No. 2, 13c; No. 3, 12c. EGGS—Good demand, with Edmonton quoted \$1.75, and Calgary \$1.50 per 100 lbs, plus 3c.

POLTRY—Receipts very light, consisting only of odd crates. Demand for services steady. Poultry, No. 1, 24c; No. 2, 23c; No. 3, 22c. EGGS—Good demand, but very few supplies available. Few B. C. cases on market, but trade afraid to import as sudden rise in temperature likely to bring heavy local deliveries. Extras quoted 16c; first, 15c; second, 12c.

HAY—FEED OATS—GREENFEED HAY—Little activity in the carload lot business. Prices steady: Upland, \$7; timothy \$7.50; on track at country points. Calgary loose hay market finding supply light and moderately active demand. Prices unchanged. Upland \$9; loose, 85c per ton, delivered. FEED OATS—Little of this commodity offered; demand steady. Supply bringing 15c bushel, delivered. GREENFEED—Trade not over active; price steady at \$6 per ton delivered.

Buffalo Steaks From Wainwright Park

Montreal, Mar. 6.—More than a million and a half pounds of buffalo meat, product of the Canadian National Park, found its way on to the markets of Canada during the past few months, as a result of the annual kill of surplus animals at the National Park, said Alan N. Longstaff, Press Representative of the Canadian National Park, in the course of a recent address in Montreal. Canadian people are coming to look forward to their annual supply of buffalo meat, said the speaker and the result was that this year saw a much greater demand for buffalo meat than the citizens of Montreal, Ottawa, Toronto and other cities.

In the Fall of 1932 it was decided to kill about 1,200 choice young animals, and these were rounded up and slaughtered under contract by Burns and Company, who handled the dressing of the meat under government supervision and who marketed buffalo meat in Eastern and Western Canada. Of the 1,200 chosen, one hundred were set aside and their meat used in the making of pemmican to be distributed by the government to destitute Indian and Eskimo tribes in the far north. Another thousand choice three-year-old animals were chosen, their meat to be marketed and it was the steaks and other cuts from these animals which had been placed on the Eastern markets.

Roosevelt Inaugurated as President of the U. S.

Franklin D. Roosevelt, former governor of New York, was inaugurated as president of the United States on March 4th. His inaugural address, the shortest on record as such, was to the point, and the policies which the new president says will have to be put in force to bring back prosperity to the republic.

Canada Bans Business in P.O. Money Orders

Ottawa, March 6.—Post office department announced this afternoon all money-order business to and from Canada with any part of the world has been suspended. The order takes effect immediately. No period will be named in the order but financial developments will be watched from day to day. This order will not affect domestic money orders.

"I wonder how long I could live without brains?" remarked a high school boy in the library. "Time will tell," replied one of the girls.

Maid—"There's a man at the door with a package marked C.O.D." Bride—"Tell him to take it back, ordered salmon."

Soup

"A Few Noodles by Tun"

A high school student who has been making a study of anatomy sends in this problem, incidentally, of problems that have come up in his studies:

Where can a man buy a cup for his knee?
Or a key for a lock of his hair?
Or an egg for a hen to hatch?
Because there are pupils there?
In the crown of his head what gems are found?
Who travels the bridge of his nose?
Does the calf of his leg become hungry at times?
And detour of his elbow on his toes?
Can the crook of his elbow be sent to jail?
Where the shade from the palm of his hand?
How does he sharpen his shoulder blades?
I'm hanged if I understand.

Here is the way an Iowa editor writes up weddings: "The bride is a woman of wonderful fascination and remarkable attractiveness, for, with a manner as enchanting as the wand of a siren and a disposition as sweet as the odors of flowers and a spirit as joyous as the caroling of birds, and a mind as brilliant as the glittering tresses that adorn the brow of winter, and with a heart as pure as the dewdrops trembling in a coronet of violets, she will make the home of her husband a paradise of enchantment where the heaven-tuned strings of hymns shall send forth those sweet strains of felicity that thrill the sense with the ecstatic pulsing of rhythmic rapture." But the groom never suspected it until he read it in the paper.

Waiter, I have been waiting a half hour for my table and my table is in a high-toned restaurant at Edmonton, "But, sir, you know the slow turtles are," the waiter replied.

Heard at the poker party: "You say a woman is the happiest after thirty-five?" "Yes, she then has a husband or knows she isn't going to get one. In either case she's resigned."

"Why don't you like those Holden girls?" asked one Viking fellow of another last week. "They are too biased," was the reply. "What do you mean, biased?" the other asked. "Oh, bias this and bias that—until I'm busted," was the reply.

"Is someone sick at your wigwam?" asked a druggist at Cold Lake when an Indian came in and bought a half dozen bottles of cough medicine. "No sick," the Indian replied. "Then what on earth do you want all of this cough syrup for?" the druggist asked. "I'm-me likeum on flayjak," the Indian replied.

Main Street

Dr. Richardson of Viking has taken over the dental practice at Irma of Dr. Murray and will from now on visit Irma every Friday where he will continue to work in the rear of the Drug Store.

Mrs. P. J. Hardy, returned to home in Edmonton on Saturday last. On Monday March 6, it was found necessary to take baby Keith to the Wainwright hospital for treatment for bronchial pneumonia resulting from a cold contracted a few days before. On Tuesday evening, Mrs. Carter, who is remaining in the hospital with her baby, reports his condition had improved slightly.

At present there is a great deal of sickness in and around Irma, mostly whooping cough and colds. The attendance at the public school is very small on account of the sickness. There is to be a chicken supper in Hedley's hall on March 17 put on by the Ladies' Aid. The charge is 35 cents. Everybody welcome.

The annual meeting of the Irma Branch No. 112, Canadian Legion, B. E. S. L., was held in Simmons' hall on March 7. The following officers were elected for the ensuing year: President, Com. C. R. Jackman; vice-president, Com. N. S. Johnson; secretary-treasurer, Com. M. Roberts. Executive: Comrades W. T. Steele, Geo. Pedel, J. A. Hedley and W. E. Inkley.

One of the worst snow storms ever experienced in this part of the world arrived here during the early morning hours of Tuesday, March 7. The snow accompanied by a high wind was piled up in huge drifts everywhere. The roads were gradually being blown out on Wednesday. Fortunately the temperature was not very severe. Mr. A. E. Foxwell is the new Mayor of the village of Irma.

The item re four generations in one last week's issue should have read: The Irma Sunday school has had the honor of having four generations in one class Sunday, February 28, when Mrs. J. Fletcher took her four-year-old son, Jackie, and her mother and grand-mother to Sunday school.

JARROW PERSONALS

Jarrow, March 7.—Mrs. Matthew and Mrs. Peet were Wainwright visitors on Saturday.

Owing to the snowstorm Friday afternoon and evening only a small crowd of about twenty-five were able to attend the dance put on by the Community club. The music was supplied by Miss C. B. Bell, Russell, Alexander and Mr. Pete Lindquist was of an excellent quality and those who were able to attend spent an enjoyable evening.

The monthly meeting of the Ladies' Aid was held on Wednesday, March 8, at the home of Mrs. Mary, where arrangements were completed for the concert which is to be held in the community hall on March 15. The meeting closed with an enjoyable hour spent around the tea cups.

Jarrow and district was saddened on Saturday by the death of Elsie Theron, although it was known that she had been quite sick, every hope for her recovery had been held until the sympathy of the community is extended to the family in this sad bereavement.

Don't forget the ladies' Aid concert which is being held in the community hall on Wednesday evening, March 15. A good program has been prepared and lunch is to be served.

"A Vision of Taxation"

The following verses have been handed in for publication. Each day you may see me out working on the farm.

I have a quarter section, a chicken and a cow on my farm.
I love to work upon the farm and keep it neat and clean,
But when I'm in my bed at night, I have such awful dreams.

I see taxes on the ceiling, I see taxes on the wall,
I see taxes in the kitchen, I see taxes in the hall,
I see taxes in the dining room, I see taxes on my plate,
I believe I can taste taxes in everything I eat.

I believe in paying taxes, I believe in being sane,
I believe these unjust taxes are taxes on the brain,
I see taxes on my children, I see taxes on my wife,
I see taxes on my income, I see taxes on my life.

The next bun rap that we predict will be no other case to me.
It's a meter on our windpipe, then tax us for the air.

NOTICE

In the Estate of CHARLES THEODORE HILL, late of the District of Irma, in the Province of Alberta, Deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above-named Charles Theodore Hill, who died on the 8th day of February, A.D. 1933, are required to file with Frederick McLehlan Hill, Irma, Alberta, by the 8th day of April, A.D. 1933, a full statement, duly verified of their claims and of any securities held by them, and after that date the executors will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or which have been to their knowledge, ASSESSED on this 21st day of February, A.D. 1933.

CLIFFTON G. PURVIS,
(Solicitor for the Executors)
Viking Alberta.
FREDERICK M. HILL
and PAULVIN J. HARDY,
Executors.

TAX ARREARS LIST

Extracts from the Tax Recovery Act, 1929, being Chapter 39, of the Statutes of Alberta, 1928.

During the Month of March in each year the treasurer shall prepare in triplicate a list (hereinafter called "the tax arrears list") of all parcels, the taxes on which are in arrears for more than a year, placing opposite the description of each parcel the amount of the arrears in respect thereof, and shall sign the same, giving his address, and shall send the triplicate lists to the chief officer of the municipality concerned.

The chief officer of the municipality, upon receiving the triplicate lists, shall return them to the treasurer. The treasurer shall, before the first day of April forward two of such copies to the proper Land Titles Office, and before doing so shall remove from the list any parcel, the arrears of taxes in respect of which have been paid, and initial all such removals.

Taxes shall be deemed to be in arrears within the meaning of this section, when they remain unpaid after the thirty-first day of December of the year in which they were imposed, or where a later date has been lawfully fixed for their payment, after such fixed date.

The treasurer shall post in his office a copy of the tax arrears list which shall be accessible to the public during office hours, up to and including the date of the sale.

Immediately upon the receipt of the tax arrears list the Registrar shall place upon the certificates of title of each parcel a notification that the parcel is subject to the provisions of the TAX RECOVERY ACT 1929 (hereinafter sometimes called "The recovery notification").

The tax recovery notification shall have the effect of a duly registered caveat, and no dealings with the parcel affected shall in any way lessen or affect its liability to be dealt with under the provisions of this Act.

(After such notification has been made, it shall not be removed until a, the treasurer directs its removal or b. a certificate of title has been issued to a municipality or other person under the provision of this Act.)

As long as any tax recovery notification subsists with respect to any parcel, no buildings, fences, fixtures or other improvements in or upon such parcel shall be removed from such parcel without the consent of the municipality concerned.

Any person contravening the provisions of this section shall be liable on conviction to a fine of not less than ten dollars nor more than two hundred dollars or to imprisonment for not more than six months or to both fine and imprisonment.

No person shall acquire any property in any such building, fence, fixture, or other improvement removed in contravention of this section.

As and from the date fixed for the sale by public auction of any parcel, the municipality shall have the right to enter upon the same with or without force, and have quiet and peaceful possession thereof.

CHAS. WILBRAHAM,
Secretary-Treasurer,
M. D. of Balm, No. 423,
Irma, Alberta.

BIG AUCTION SALE TO BE HELD MONDAY, MARCH 20

A big unreserved auction sale will be held on the N.W. Quarter Sec. 10-47-12-24, four miles east of Viking, on the main highway; one mile south and one mile east, on Monday, March 20. There is a fine list of horses, cattle, and general farm requisites. Sale starts at 1 p.m. Mrs. E. Pursall, proprietor: Guy Harris, Auctioneer.

Heard among the fellows at the dance: "What became of that little girl you went to who was so peevish?" "Oh, I had to drop her, she became so expensive."

"But, dad, I was just jostling some wild oats," said a local young fellow to his dad. "All right, I'll now attend to the thrashing," the old man replied.

NOTES OF INTEREST OF BUSY KINSELLA

KinSELLA, March 8.—Miss Isabel McKie returned from Edmonton on Tuesday where she has been for the past few days. Mr. and Mrs. Kinsella spent Thursday at Wainwright.

Mr. Beschal Sr. spent the week end at Edmonton.

Miss Ella Cormack spent the week end with Mrs. Bruce Davis.

Born—To Mr. and Mrs. Clayton Garvie at the Viking hospital on February 4, a son.

The Misses Richardson's of Wainwright, spent the week end with their parents here.

Born—To Mr. and Mrs. Leslie Clay, at the Viking hospital, on February 5, a son.

Mr. Carl Smogard returned home on Saturday last from the States, where he had been visiting his parents for the past few weeks.

Mr. Frank Williams has purchased Block No. 2 south of Wainwright highway and intends to erect a new garage and service station where he will carry on general repairs and service, as he has in the past.

Mrs. George Desmond of Viking spent the week-end with her husband north of town.

Rev. Matthews of Viking, preached at Rodino on Sunday last.

Mrs. Tom Mackey is a patient in the Viking hospital.

Mr. and Mrs. P. E. Jones, Irma, and Mrs. Garvie, visited Mrs. Jones sister, Mrs. Mackey at the Viking hospital on Sunday.

Halifax, N.S., Mar. 6.—One of the largest individual consignments of palm oil produced within the British Empire purchased by a Canadian company has arrived at Halifax consigned to Toronto. The palm oil is being pumped from the vessel into railway tank cars for furtherance to destination. Special unloading gear was necessary to handle the oil at the Canadian National Railways. The palm oil from South Africa and the transaction is an outcome of trade agreements reached at the Imperial conference held in Ottawa in July last.

CHICAGO'S MAYOR DIES IN MIAMI MONDAY

Miami, Florida, March 8.—Mayor Anton Cermak, of Chicago, who was wounded February 15th by Giuseppe Zangara, the man who tried to assassinate President Roosevelt, died today in Jackson Memorial hospital as a direct result of the gun shot wounds. Zangara is now charged with murder.

Proposed Wheat Conference.

The importance of holding an international conference of the principal wheat exporting countries at the earliest possible date was stressed in a recent statement by L. C. Brouillet, president of the Saskatchewan Wheat Pool, who said:

"The wheat problem, as it affects all countries who rely upon this cereal to provide a major part of their external trade, has become today of such a pressing nature that the situation cannot be met through some measure of agreement among the various countries concerned. The producers of every land are in dire straits."

"The time is ripe for a meeting of the principal wheat exporting countries to give the most careful study of phases. To serve a really useful purpose, the work of such a conference should be to embrace the wheat problem in its entirety, that is to say, it should give attention to producing and financing as well as to marketing. For example, were the representatives of the various countries to decide upon some agreement affecting the production of wheat, the Northern Hemisphere countries would require knowledge of the general program before the coming spring. In any event, it is important that decisions upon all aspects of the question should reach well in advance of the first movement of the 1933 crop."
